(Note: Washington Distribution Indicated By "X"; Field Distribution By "#".) Form No. 51-61, January 1953

50X1-HUM

1. The machine construction school (TECHNIKUM BUDOWY MASZYN) is located on ul. Długa # 1 - 3 at ELBLAG, in the building of the former German technical school. After WW II Polish authorities established there a secondary technical school ( GIMNAZJUM I LICEUM MECHANICZNE ) which was subject to the Central office of vocational schooling ( CENTRALNY URZAD SZKOLENIA ZAWODOWEGO ). Since 1951 the a/m school is subject to the authority of the Ministry of Machine Industry ( MINISTERSTWO PRZEMYSŁU MASZYNOWEGO ) and bears its present name.

The building houses also the Peat Industry school (TECHNIKUM PRZEMYSŁU TORFOWEGO), which is subject to the authority of the Peat Industry Institute (INSTYTUT PRZEMYSŁU TORFOWEGO) at ELBLAG.

2. The school is attended by two kinds of students:

- a) regular students, who have to attend the school for 4 years
- b) external students, who have to attend the school for 3 years.

The regular students are graduates of grammar schools (male and female). They have to pass a special examination. 160 students are accepted yearly. They are broken down in 4 classes of 40 students each.

The external students are young men and women, graduates from vocational schools, who are working already ( at least for 1 year ). The number of these students is 40 - 60 yearly. They form just one class.

Class for the regular students is held in the morning. Once per week they practice in the school workshop or at the mechanical plant "ZAMECH". Class for the external students is held in the evening.

After the 4 resp. 3 years schooling the students have to pass a finishing examination and then graduate as technicians.

The teaching standard is rather low because, upon order of the Ministry of Machine Industry (MINISTERSTWO PRZEMYSŁU MASZYNOWEGO), a certain number of technicians has to graduate from the school every year, regardless of the qualifications.

**SECRET**  
**SECURITY INFORMATION**

Only students who do not originate from the "working class" and "do not agree with the actual political situation" are eliminated from the school and not allowed to attend any other school.

4. The school teaches three subjects:
- a) turbines
  - b) machine tools
  - c) tools ( in general )

After the finishing examination students who graduate as technicians are sent to work with:

The mechanical plant "ZAMECH" at ELBLAG

A large forge (ZAKADY KUZIENNE) at ELBLAG

Shipyards at GDANSK and GDYNIA.

5. Personnel of the school:

Administrative director: Magister KOCIALKOWSKI, fnu, 50X1-HUM

Pedagogic director(dyrektor pedagogiczny): Magister 50X1-HUM
